What You Should Know About Original Medicare and Medicare Supplement Plans.

WHAT IS NOT COVERED BY ORIGINAL MEDICARE PARTS A & B?

Medicare doesn't cover everything. Some of the items and services Medicare doesn't cover include:

- Long-term care (also called custodial care)
- Most dental care
- Eye exams related to eyeglass prescriptions
- Dentures
- Cosmetic surgery
- Acupuncture
- Hearing aids and exams for fittings
- Routine foot care

WHAT DOES MEDICARE SUPPLEMENT PLANS COVER?

Medicare Supplement plans help fill the gaps in original Medicare. While original Medicare covers a lot, not all the costs are included for health care services and supplies. A Medicare Supplement Plan can help pay some of the remaining health care costs, such as:

- Copayments
- Coinsurance
- Deductibles
